

foreword

Techno India Group started in 1985 for the exclusive purpose of delivering quality education in science and engineering in the state of West Bengal, India. Today Techno India is the recognized leader among private education groups in India for its academic excellence and vast multitude of course offerings.

Our Journey of Excellence

The group has attracted toppers from almost all renowned schools in India particularly in West Bengal in its engineering colleges which in turn aroused the interest among leaders like TCS, Infosys, CTS, Reliance and several other renowned corporate houses for fresh engineers.

Techno India Group is the leader in quality education with campuses consisting of Global Universities, Engineering Colleges, Business Schools, IT Schools, Public Schools and Model Schools with several other Institutions and Industries.

The group is propagating education in Technology, Science, Management, Medicine, Hospitality, BBA, Law etc. and promoting the concept of Vertical Integration from Playgroup to Ph. D under one roof.

The overwhelming success of institutions of higher learning prompted us to establish educational institutions to nurture children from the grass root level with the mission to develop in-depth knowledge for the new learners in our schools.

Our effort is to develop new and effective approaches to teaching and incorporate the concept of E-learning which uses digital technology in teaching and learning process.

Adhering to the same high standards of teaching followed in higher education, a revolution is all set for the lower level as well. From the grassroots level the group has a strong ethos of Communicative English - a unique feature of the school instilling confidence in our students. Traditional education tends to value a limited range of knowledge and skills but more recent research suggests that intelligence is not unitary but multiple. The schools aim to give students a broader, deeper and richer educational experience by recognizing each student's strongest aptitude and building on them through modern learning tools, in order to ensure that all potential areas are developed.

The schools recognize the fact that potential to achieve excellence is hidden in every student and hence in a pioneering effort, provides a stimulating congenial learning atmosphere, so as to give the students a learning edge over others. They have a reputation for their academic achievement and innovation. A child-oriented method of education is followed, with attention to individual potential. All the schools offer excellent facilities and resources for learning in its well-stocked libraries and laboratories.

Techno India Group Public School comprises of co-educational English medium day schools with day boarding and hostel facilities in some of the campus.

The only good is knowledge and the only evil is ignorance - Socrates

objective

OBJECTIVE

TECHNO INDIA GROUP PUBLIC SCHOOL strives for the total development of the student with special emphasis on intellectual and moral growth. The objective is to take special effort to cultivate a warm and friendly teacher-student relationship which will guide the students to become well-rounded individuals.

In order to achieve this, we at Techno India Group Public School strive to:

- inculcate in every student a spirit for excellence in curricular & co-curricular activities
- create a notion in every student to lead a life based on firm principles and high moral values
- prepare every student to be of service to society and nation
- create a sense of responsibility and dedication, build character, instill ethical practices and honesty in every student

3. XI - XII — April to March

Evaluation and Promotion

According to the latest CBSE guidelines uniform system of evaluation is followed and promotion is granted on the basis of cumulative performance of the pupil. Class wise details of our evaluation system are available with respective school campuses. Student's merit and performance is assessed throughout the year as per CBSE rules and regulations.

FACILITIES

Faculty

The students are guided by highly experienced and qualified faculty members, who are compassionate enough to understand the needs of each individual child, just as their parents do at home. The teaching methodology concentrates first on the student's aptitude, then on the skill and knowledge he/she needs to acquire.

A good teacher is like a candle, - it consumes itself to light the way for others

discipline

Each subject is treated as a separate department having at its helm of a Head of the Department with adequate number of qualified and experienced teachers. The performance of the faculty members are graded periodically through self evaluation and by a process followed by the academic council for the respective year.

While our academic results speak for themselves, the overall quality of the teaching staff has been further enhanced by numerous and well designed teacher training workshops. Association of experts, educationists and reputed professors hone the teaching - learning process further

Several in house training, workshops are organized for teachers for up gradation of teaching skills and for staying abreast of the latest pedagogy.

Education Technology tools in Teaching Learning process

- ✦ Audio-visual Digital Classroom support is provided for better learning experience

SUPPORT

Health

Every care is taken of students' health. The schools have well equipped sick rooms for emergencies, for any child who needs attention.

Care is taken to ensure that students are in good health all through the year. Clean and well maintained school campus, medical checkup, regular Physical Education, all contribute to the health of our students.

Counselling

We have specialized and qualified professional Counsellors available at every level for the guidance of our students.

Life Skill Education

Life Skill classes are an integral part of the class routine which helps the students to adapt to a situation positively and deal effectively with demands and challenges of every day life.

Inclusive Education

At Techno India inclusive learning runs parallel for slow learners with developmental delays and they are included in the mainstream classroom. Trained special educators cater to the children according to the need based programme.

Prizes and Awards

Meritorious students are awarded scholarships & free ships. Full or part Scholarships or Bursaries are available to needy and meritorious students.

The School management also gives prizes/awards/scholarships to deserving students during the course of study and also after the board results are published.

Career Development

The School has a scheme and system for guiding the students for competitive exams. During the course of studies guidance is given to prepare for different competitive examination like JEE, NEET, etc. depending upon the merit of the student.

Knowledge is the eye of desire & can become the pilot of the soul - Will Durant

co-curricular activities

Experts in career guidance and industry leaders visit the School and interact with the students to advise them on different career options, before the end of the session.

Security

Techno India Group Public School strictly looks after the security of the students. Visitors' entry in the School Campus is highly restricted. Visitors may be allowed to meet a student on an emergency call or handed over to the escort subject to necessary verification.

For the security and safety of the students an effective fire fighting system has been installed with smoke detectors. Experts have been invited to guide the students and management in learning appropriate emergency processes.

CCTV surveillance system has been installed for round the clock monitoring.

Co-curricular Activities

We at Techno believe that every child has some latent potential and talent and we seek to make them aware of the same.

TIGPS has extensive facilities for students to practice the performing arts and learn them. It has been seen that there have always been a boon to the moral and spiritual development of a child and it is this environment that we aspire to create.

Wide range of co-curricular activities under one roof is provided like, Martial arts, Music - Vocal & Instrumental, Elocution, Dance, Drama, Art & Craft, Chess, Yoga and Meditation. Celebrities who are experts in the field of dance, music and elocution conduct workshops frequently in own school campuses. Special talks are held on Motivation by a renowned sports personality.

Summer camps are organized for our children so that they can pursue an activity of their choice in depth.

Games and Sports

Games and sports are compulsory part of the educational process. The outdoor and indoor game programmes are Football, Cricket, Basketball, Volleyball, Badminton, Table Tennis, Hand Ball, Gymnastics, Yoga, Chess, Athletics and swimming. Expert coaches guide the students.

Green Concept

Students are exposed to study on conservation of nature, energy, water resources, and prevention of pollution in order to lead a healthy life and choose responsible ways of living.

Outward Bound

Study tours and excursions are organized to sensitize students to the natural, cultural and social world.

The very spring and root of honesty & virtue lie in Good education - Plutarch
